

OPTIONALS FROM PAG 47 - N° 02 - 03 - 04 - 09 - 12 - 20 - 34 - 57 - 72 - 80

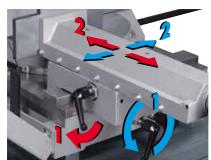

SHARK 282 CCS (Cut Control System) manual bandsawing machine to cut from -45° up to $+60^{\circ}$. Other than the manual pull down cutting mode can make single cuts without operator, using the head weight controlled by a hydraulic brake: after having positioned the material and closed the vice, operator start the cycle, saw head comes down by gravity and controlled trough an hydraulic circuit, saw head is manually lifted and locked by the operator at whatever position by an hydraulic valve.

In the version with pneumatic vice (MA) the vice is opened/closed by the operator trough a valve (optional with pedal control).

FEATURES: See SHARK 282.
